

Tactika - All-in-one Competition hub for The Circle

What it is: Tactika is The Circle's private Hell Let Loose strategy and prep platform. Steam sign-in, member-only access — our climbs, strats, routes, and match plans stay inside the team.

Why it exists: Prep used to live in Discord threads, PDFs, and personal drives. Tactika puts it on the maps we already know, so everyone can find it and use it before match night.

Where:

hll-tactika.pages.dev (Interactive map tool) hll-tactika-test.pages.dev (test hub)

What you can use today

Tool	What it does
Hub	Home dashboard — upcoming events, your open prep tasks, online presence, tool launcher
Calendar	Scrims, comps, practices — opponent, map, faction, result
Match Brief	One page per match: facts, notes, linked tools, prep checklist
Climbing Guide	Climb & MG spots on all 20 maps, with video
Stratmaker	Multi-slide tactical drawings (routes, callouts, HLL placeables) — live co-edit
Micro Prep	Whiteboards & slideshows for freeform match prep — live co-edit
Routeplanner	Timed truck routes with pathfinding, frontier wall, playback
Team / Roster	Comp rosters (drag-and-drop), site access, staff management
HLL Records	Past match history — filters, win/loss, open any Brief

Match night flow (shipped): Calendar or Hub → **Match Brief** → attach strats / routes / whiteboards / roster → assign prep tasks → members tick them off under **My tasks**.

What's next

Building toward fuller match ops:

Coming	Why it matters
Team KPIs & charts	Win/loss and performance on Hub + Management Analytics
Discord bot	Member sync, notifications, reminders, slash commands
RSVP + next-match card	Sign up for matches; Hub highlights what's next
Create-match wizard	Faster match setup, with Discord notifications once the bot is ready

Bottom line: One place for Circle prep: maps, plans, routes, and match briefs. Private to the team. Match Brief and Records are live; Discord sync, RSVP, and KPIs are next.
